REQUIRED INSPECTIONS

NEW CONSTRUCTION, REPAIRS, ALTERATIONS AND ADDITIONS

All new construction requires the following inspections:

- Foundation: A plumbing inspection must be done before the pouring of the slab.
- Framing: A framing inspection must be done once the framing of the home is complete. Before closing in walls, a framing, electrical, HVAC, gas and plumbing inspection must be done. Sheathing/Nail Pattern inspection before house wrap or felt.
- Pilings, piers, chain-wall, etc... (finished floor elevation): An inspection must be done at the first living space floor for elevation to ensure that pilings, piers, chain-wall, etc. are in compliance with the elevation height requirements. For new homes, this is when the 2nd Elevation Certificate is required.
- Plumbing: The following are a list of inspections that must be done before a final can be given; plumbing, rough in and stack-out and final.
- Gas: A gas inspection must be done before the gas company will inspect and turn on gas. Pressure must be set at 5 pounds or 12 inches of mercury.
- HVAC: The following are a list of inspections that must be done before a final can be given; mechanical rough in and stack-out and final.
- Electrical (temporary pole): An electrical inspection must be done for T-Pole, rough-in, TEMP 30 day power and final. Full power to the home will not be granted until the home is completed in accordance with the 2018 Building Code. For temporary power to the new construction home, a temp pole (TPole) must be installed and inspected before service will be turned on. (Home Owners must call and set up an account with MS Power or Coast Electric for service) Inspections are required for temp poles for new construction, sheds and homes.
- A Home Owner may pull all permits including a Building, Electrical, HVAC and Plumbing permit. A Gas Permit may only be pulled by a Licensed Contractor.
- Final Inspection: A final inspection must be done on all completed work before a Certificate of Occupancy is issued. The completed home must be constructed according to the 2018 Building Code. On all new constructed homes, all 3 Elevation Certificates are required before a Certificate of Occupancy is issued.
- If you have any questions or concerns, or would like to schedule an inspection, please call the City of Long Beach Building Official's Office at 228-863-1554.

ATTENTION HOME OWNERS

It is not the position of the City of Long Beach Building Department to keep anyone from acting as General Contractor for the construction, repair or remodeling of his/her own home.

It is the intention of the Building Department to prevent a fraud being perpetrated by an unlicensed Building Contractor by having you obtain a permit for such construction for his benefit.

We want to ensure that, if you are going to act as your own General Contractor, that you understand some of the pitfalls and liabilities you undertake, to wit:

1. You may be financially responsible for any person that is working under your direction, which is injured while working on your job. This financial responsibility may include hospitalization cost, unemployment compensation, law suits for lost wages and workman's compensation. No existing homeowners or builders risk policy currently covers this type of loss.
2. You may be responsible for withholding taxes on all persons working under your direction and supervision. This includes unemployment taxes, social security taxes, and matching social security benefit taxes for each person.
3. If you do not obtain contractors general liability insurance, you may be personally liable for any injury of any person that is hurt on your property while construction is in progress. Your homeowner or builders risk policy does not cover this type of loss.
4. The Mississippi Supreme Court has ruled in a precedent setting case that all persons named as contractor on a building permit for the construction of a residence is deemed the responsible party for losses by future owners. If major structural damage occurs up to ten years after construction, and if you are the general contractor on the permit, then you assume this responsibility. This responsibility cannot be superseded by any secondary waiver with any person or uninsured company.
5. If a homeowner employs a General Contractor, it eliminates claims being made by subcontractors and others against the owner to a great extent. If an owner acts as General Contractor, the protection is lost.
6. The homeowner is also responsible for code violations and any penalties in addition to being responsible for corrections to be made, at your cost.

The above list is not intended to be a legal guide or advice, nor is it all encompassing, but only to point out some of the hazards of you acting as your own General Contractor.

I HAVE READ AND UNDERSTAND FULLY THE ABOVE AND FORGOING STATEMENT AND AGREE TO BE BOUND BY THE CONSEQUENCES OF MY APPLYING FOR THIS PERMIT.

HOMEOWNERS CERTIFICATION OF COMPLIANCE

THE UNDERSIGNED HEREBY CERTIFIES UNDER PENALTY OF PERJURY THAT:

- I am the legal owner of record of the property described above and;
- The property described above is my principal place of residence, or if the application is for a permit to construct a new residence, the new residence will be my principle place of residence upon completion and;
- I am familiar with construction codes, city ordinances, and state laws applicable to such construction activity and;
- All work under the permit issued, as a result of this application, will be performed by me;
- All work must be completed in conformance with current applicable construction codes and must pass inspections by City Inspectors, and I will pay re-inspection fee for any re-inspections required as a result of the work not being ready for inspection or not being in conformance with the applicable code when inspected and;
- If after the work has been inspected the Building official determines that I do not have the knowledge and/or experience to complete the work in conformance with applicable construction codes, the Building Official may stop the work and require me to engage a license and bonded contractor to complete the work.

HOMEOWNERS... Pulling your town permit is RISKY BUSINESS!

If you do not intend to do the work yourself and have been asked by someone without a contractor's license to pull a permit, you are at risk for financial harm.

Fraudulent contractors like to fool people. That's how they earn a living. They will tell you, "Don't worry, you don't need a permit, I've been doing this for years" or "Don't worry, I am licensed and bonded." Demand **WRITTEN PROOF** of their claims because YOU will pay the price if something goes wrong.

Protect yourself. Hire only licensed contractors. For more information, verify whether a contractor is licensed visit our website at www.msbbc.com or contact us directly at 1-800-863-0131.

WHAT TO CONSIDER BEFORE PULLING YOUR OWN PERMIT

Are you the most valuable asset. In order to protect yourself and your investment, please consider the following before pulling your own building permit:
Are you willing to withhold employment taxes and provide workers compensation coverage?
Are you willing to ensure the safety of individuals working on your property?
Are you willing to be held liable if work causes damage to you, claimant's property?
Do you have the basic principles of residential construction?

Are you willing to take on all the responsibilities of a contractor?
Are you willing to provide direct supervision of the work?
Are you willing to call on all the contractors to finish all work in a timely manner?
Are you willing to be held liable if work is not done properly?
Are you willing to be held liable if work is not done properly?

Are you willing to be held liable if work is not done properly?
Are you willing to be held liable if work is not done properly?

A CLEAN JOB IS A SAFE JOB

- This will make your jobsite look more appealing for a potential buyer
- This will make you look better as a contractor to your customers
 - This could save you from a potential workers comp claim

There will NOT be an inspection on your jobsite if the work area is not clean of trash and other debris
